OLIVE HARVEST TIME

AMONG THE OLIVE GROVES OF CHIARAMONTE GULFI, FROM HARVEST TO TASTING THE NEW OIL

At the beginning of November, we continue our journey to discover the seasonality and the agro-cultural traditions of the Sicilian territory. The star of the day will be **the olive harvest in Chiaramonte Gulfi**, an area renowned for the quality of its extra virgin olive oil.

Our guides for the day will be **Frantoi Cutrera**, a local landmark that has been producing high-quality oil for generations, now exported to over 50 countries and awarded in the most prestigious international competitions.

We will have the opportunity to actively participate in the olive harvest and, after a short walk through the estate's historic olive groves, we will take a break in the shade of the trees, accompanied by some typical products from the Chiaramonte area.

We will then resume our walk along the **Cava Donnagona** trail, which will lead us to the mill, where we will witness the pressing of the olives harvested during the morning and taste the freshly produced oil, straight **"from the mill"**.

We will conclude our visit by exploring the various areas of the estate to discover the main stages of the production chain and follow the journey **from tree to bottle**.
